If you elect me as one of 6 Scottish MEPs I’ll work tirelessly for Scotland’s interests in Europe – for a Scotland where public services are in public hands; where workers are put ahead of bankers’ bonuses; and which is a welcoming place for people to come and live.

Cllr Maggie Chapman, Lead European Candidate for the Scottish Greens

Vote Maggie Chapman as Scotland’s first Green MEP

FOR A JUST AND WELCOMING SCOTLAND
COMMUNITIES IN CONTROL

Greens are the party of local control. Across Europe, Green MEPs are pushing for reform of the EU, handing power to the most local level possible.

We’ve proposed wholesale reform of banking to break up huge centralised companies. And Green MEPs were the first to win a tax on bankers’ bonuses.

Greens put local decision-making first. That’s our guarantee.

As a former Green MEP, I know what a force for good Greens are within the European Parliament. But people in Scotland really need to have their own Green MEP fighting for a just, more welcoming society. I’d be delighted if Maggie Chapman got your backing to stand up for Scotland’s interests in Europe.

PUBLIC SERVICES IN PUBLIC HANDS

As a local councillor in Edinburgh for 7 years Maggie deeply values public services and wants to see them firmly in public hands.

Greens want to see the rail network returned to public ownership – something which Green MP Caroline Lucas has been pursuing hard in Westminster.

As your Green MEP, Maggie will back vital services like post offices and the NHS and take a firm stand against privatisation of public services.
This election is about choosing the 6 MEPs who will best represent Scotland in Europe. The Greens believe in a Scotland which stands tall as part of a family of nations. With Maggie Chapman representing Scotland in Europe, you are choosing a future for our country where we:

- Boost the economy by harnessing our huge potential in local food and farming; and creating thousands of jobs in clean, green, sustainable industries.
- Play our part in disaster-relief, peace-keeping, and helping those caught up in war; by saying a firm NO to NATO, nuclear weapons and military aggression.
- Take the decisions which allow our natural environment to flourish; and which safeguard precious natural resources.

A Green vote on 22 May is about the kind of Scotland you want to see: just, welcoming, forward-looking.

A WELCOMING COUNTRY

Maggie Chapman recognises the immense debt owed by the NHS to workers who come from all over the world to provide a service to Scotland. As a university teacher she sees the outstanding contribution made to research and our future prosperity from colleagues across the globe. And as someone who was born in southern Africa Maggie is proud of the way Scotland welcomes people who want to come to live and work here.
Your Green Vote matters more than ever

Scotland chooses six MEPs on 22 May using a fair voting system. The real contest is for the sixth and final seat. That is a race between the Scottish Greens and UKIP, a party with no interest in what happens in Scotland.

The Greens are in pole position as shown by the result last time round.

Scotland is the UK’s only UKIP-free zone.

A Green vote works best to keep it that way.

You can help elect Maggie Chapman as Scotland’s first Green MEP by making a donation or joining our campaign:
